ABOUT ISAPS

Founded in 1970, the International Society of Aesthetic Plastic Surgery (ISAPS) is the world's leading professional body for board-certified aesthetic plastic surgeons.

Regarded as the leading global authority on aesthetic and cosmetic surgery, ISAPS' threefold mission is to offer aesthetic education worldwide, to provide accurate information to the public, and to promote patient safety.

ISAPS membership includes the world's best and most respected reconstructive and aesthetic plastic surgeons in over 100 countries. Through its rigorous membership requirements, ISAPS plastic surgeons are considered to be among the most qualified surgeons in their respective countries. Furthermore, ISAPS has become the gold standard for providing continuing aesthetic education to its members, providing training and sponsoring scientific meetings around the world.

A full list of ISAPS plastic surgeons can be found online at www.isaps.org.

ABOUT THE INTERNATIONAL SURVEY ON AESTHETIC/COSMETIC PROCEDURES

METHODOLOGY

Survey participants completed a questionnaire that primarily focused on the number of specific surgical and nonsurgical procedures performed in 2018, along with some ancillary questions related to medical tourism.

The International Society of Aesthetic Plastic Surgery (ISAPS) issued an invitation to participate in the study to approximately 35,000 Plastic Surgeons whose contact information is housed in its proprietary database. In addition, a request was made that all National Societies encourage their members/constituents to take part in the survey.

Final figures have been projected to reflect international statistics and are exclusively based on the estimated number of Plastic Surgeons actively practicing in each country and the respondent sample. This International Survey is focused on physicians who are board certified (or national equivalent) Plastic Surgeons.

To aid in tallying the worldwide estimate of plastic surgeons, representatives from National Societies provided recent counts for 97% of the 46,300 total estimated plastic surgeons. For those cases in which the National Society did not provide

its country's total, a regression model was used to estimate the number of plastic surgeons in the country based on its population size and Gross Domestic Product.

Studies such as this must often address outlying responses. Though the outlying values may be legitimate, their presence can distort the averages, which provide the basis of the estimated projections. Significant outliers in this survey were adjusted in order to protect the reasonableness of the extrapolated values. Additional standard data editing procedures were followed to ensure responses met survey guidelines. All reported data values have been analyzed for statistical reasonableness.

Country-specific data are only shown for those countries that provided a sufficient survey response for the figures to be considered valid. No adjustments other than standard data editing procedures were applied to country-specific results. The International Survey on Aesthetic/Cosmetic Procedures Performed in 2018 was compiled, tabulated, and analyzed by Industry Insights, Inc. (www.industryinsights.com), an independent research firm based in Columbus, OH. The survey leader was Scott Hackworth, a CPA and data scientist who along with his firm has conducted various forms of research on trends in Aesthetic Plastic Surgery for more than 30 years.

HIGHLIGHTS

OF THE INTERNATIONAL SURVEY ON
**AESTHETIC/COSMETIC
PROCEDURES**

PERFORMED IN 2018

2018 STATISTICS AT A GLANCE

Top 5 surgical procedures worldwide

absolute numbers and changes compared to 2017

1. Breast Augmentation	1,862,506	procedures	+11%
2. Liposuction	1,732,620	procedures	+10.1%
3. Eyelid Surgery	1,099,960	procedures	-18.3%
4. Abdominoplasty	888,712	procedures	+10.8%
5. Rhinoplasty	726,907	procedures	-17.1%

Top 5 surgical procedures for women

1. Breast Augmentation	1,841,098	procedures
2. Liposuction	1,482,395	procedures
3. Eyelid Surgery	872,367	procedures
4. Abdominoplasty	812,387	procedures
5. Breast Lift	710,014	procedures

Top 5 surgical procedures for men

1. Gynecomastia	269,720	procedures
2. Liposuction	250,225	procedures
3. Eyelid Surgery	227,593	procedures
4. Rhinoplasty	188,696	procedures
5. Ear Surgery	98,728	procedures

Top 5 nonsurgical procedures worldwide

absolute numbers and changes compared to 2017

1. Botulinum Toxin	6,097,516	procedures	+21.1%
2. Hyaluronic Acid	3,729,833	procedures	+13.1%
3. Hair Removal	916,869	procedures	-8.1%
4. Nonsurgical Fat Reduction	473,316	procedures	-1.1%
5. Photo Rejuvenation	436,656	procedures	-20%

Top 5 nonsurgical procedures for women

1. Botulinum Toxin	5,344,764	procedures
2. Hyaluronic Acid	3,382,281	procedures
3. Hair Removal	766,768	procedures
4. Nonsurgical Fat Reduction	392,494	procedures
5. Photo Rejuvenation	382,843	procedures

Top 5 nonsurgical procedures for men

1. Botulinum Toxin	752,752	procedures
2. Hyaluronic Acid	347,552	procedures
3. Hair Removal	150,101	procedures
4. Nonsurgical Fat Reduction	80,822	procedures
5. Photo Rejuvenation	53,813	procedures

2018 STATISTICS AT A GLANCE

most common **COSMETIC** procedures per **AGE GROUP**

18 years or younger	Rhinoplasty	55,899	procedures
